Start of Block: Description and agreement

Q1 Number of tested subject (filled by researcher).

\_\_\_\_\_

Q2

In this survey we want to better understand you as a customer. Please, answer closed questions about your experiences and preferences related to **video on demand (VOD) services**.

Whenever you are asked about VOD services, **think about all kinds of services, where you choose what and when you want to watch** (e.g. TV series and shows watched online, such as Netflix or publicly available content such as YouTube etc.). Do not limit yourself to mentioned services. We are interested in all kinds of videos available for online watching.

However, be careful. Consider **only** publicly available recordings, not recorded private videos (e.g. on Snapchat or Messenger), nor video chats (such as Zoom, Skype, WhatsApp, etc.), nor live video streams (sports events, live streams from YouTube or Facebook etc.). If you have any questions, please ask for help. Participation is voluntary and you can resign at any time. The test will take approximately 30 minutes.

Q3 Do you agree to participate in the study?

- ☐ Yes (1)
- ☐ No (2)

Q33

In this section, we will ask you to evaluate various characteristics and **factors** in terms of how much you think they affect your VOD experience. Imagine how much the given events and characteristics make the experience pleasant or annoying.

Please mark it on a scale from „Not at all” to „A lot”. If you think an aspect has a big impact, choose "A lot" and if not, select "Not at all".

We encourage you to differentiate as much as possible during the assessment. There are no "right or wrong" answers. If you do not understand an item, please select "I don't understand".

We want to know what may impact your personal experience with video-on-demand (VOD). Focus on your **general** experience that is not related to one specific memory.

R- reconstruciton

Now, please think about the important event related to video-on-demand (VOD) over the past month. We want you to recall a **unique, memorable experience** (satisfying or unsatisfying) that you have had while using any type of video on demand application.

Take a few minutes to make sure you remember a personal, important experience and recreate the event as detailed and accurately as possible. To help you recall this memory, we will display some leading questions on the following pages. Some question doesn't require writing down the answer. However, thinking about them will help you complete the rest of the questionnaire. We provide minimum **15 seconds** for each question. Only after that time it will be possible to move on to the next question.

If you need, you can see below what type of service we want you to think about when we ask for VOD. Please note that we only want you to think about pre-recorded videos that are available for online watching.

Having in mind the experience you just thought about, we ask you to re-evaluate the various **factors** and characteristics that may have influenced your experience. This time, please answer how strongly these factors have had a positive or negative impact on your impressions of that particular, one, remembered event. Think about how the given events and characteristics made the experience pleasant or annoying.

If they were very significant, select "A lot", and if not at all, select "Not at all". If any items did not exist in your memory, select "Absent". When an item is incomprehensible, please mark "I don't understand". We encourage you to differentiate your answers as much as possible. Remember that we need a description of your own experience. There are no "right or wrong" answers.

We want to see what your experience was like in this **particular case**.

This is the last part of the study. However, it is very important. Please do it carefully.
